## Introduction

The Kingfisher Pro Fashion Theme is a CMS theme which helps you to enhance your website visibility using color combination and different snippets. It is specifically made for Fashion Industry.

## Benefits of Kingfisher Pro Fashion

- This theme will beautify the website using various snippets.
- This theme is specially made for Fashion Industry.

## Pre-requisites

- Following points must be followed before starting the plug-in installation:
  - You should login as an Admin in Odoo.
  - Check that your Odoo Instance is compatible for Kingfisher Pro Fashion Theme.
  - An e-commerce module should be present in your instance to use this app.

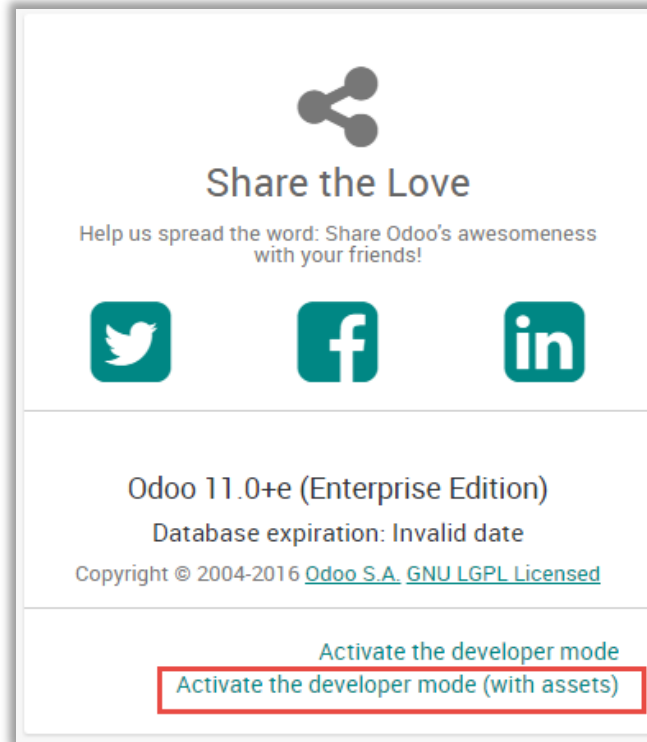

**Note:** Kingfisher Pro Fashion Theme v11's all new features are not available in v8, v9 and v10.

# Installation

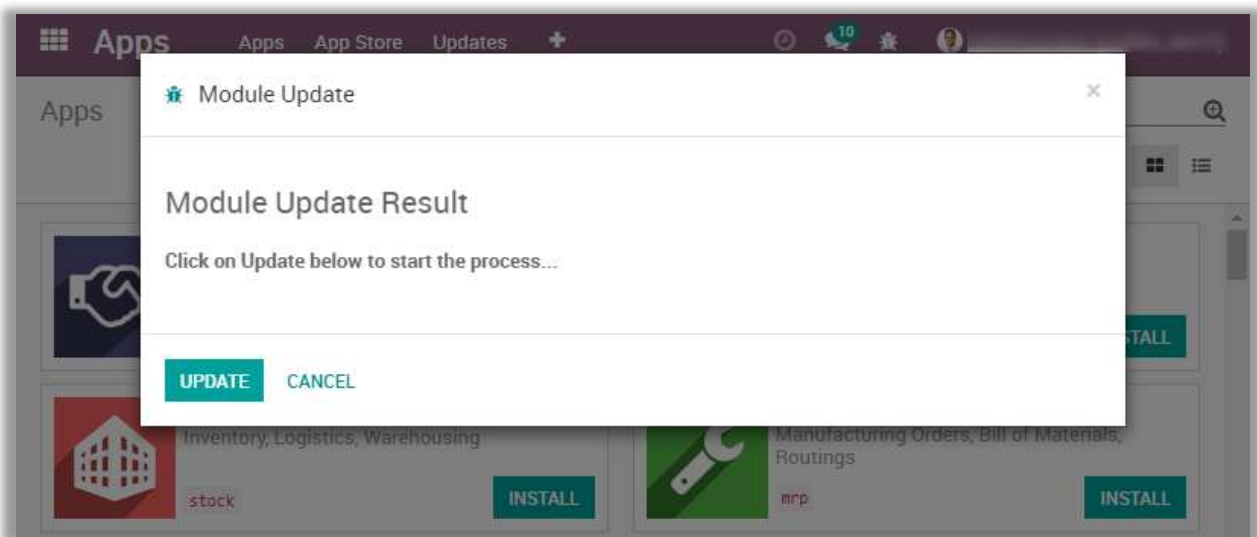

## Installation Steps

- Download & extract the zip file.
- Check your Odoo add-ons path.
  - It should be same as defined in Odoo Config file.
  - Config files are mostly saved in /etc folder. For e.g. /etc/odoo.conf
  - Open Config file:
    - Give the command: `sudo/etc/odoo.conf`
    - Config file content: `addons_path = /opt/odoo/addons`
- Open Terminal and go to download location
  - For e.g. if the download location path is: `/home/odoo/Downloads` then the command to be written in the terminal would be: `cd/home/odoo/Downloads`
- Copy download modules to addons path
- Give the below mentioned commands to perform copy operation:
  - `$cd /home/odoo/Downloads/kingfisher_pro`
  - `$cd v8`
  - `$sudo cp kingfisher_pro/opt/odoo/addons`
- Restart Odoo server
- Login with the admin credentials in your odoo instance.

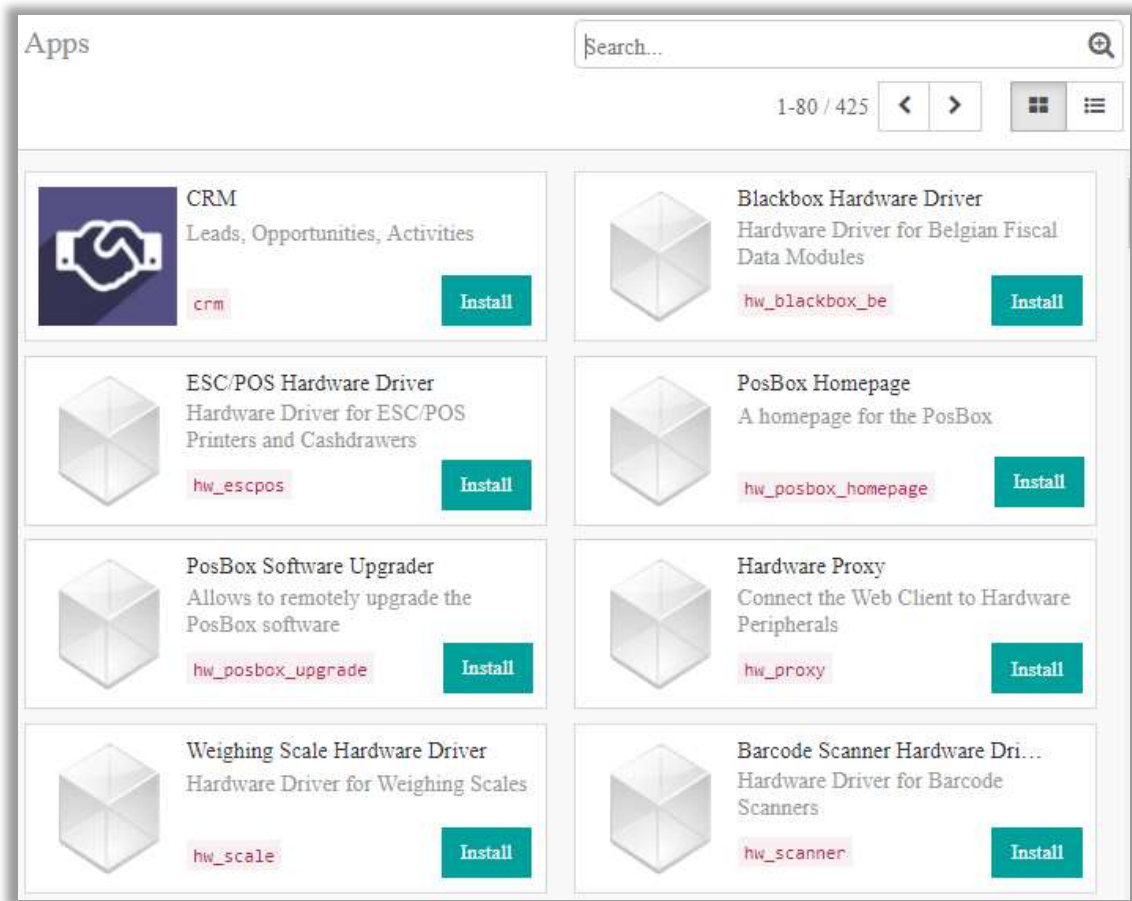

- Activate the Developer Mode
  - To activate Developer Mode, Go to **Settings** -> **Activate the developer mode (with assets)**. Click on '**Activate the developer mode (with assets)**' and developer mode will be activated.

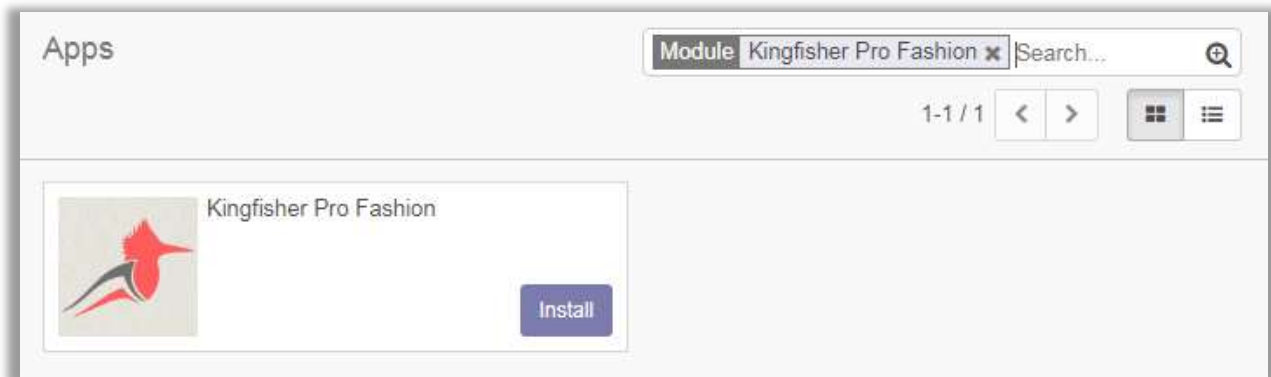

- Go to Settings/Update Apps List
  - Click on '**Update**' button.

- Go to Settings/Apps
  - Remove search filter

- Enter module name in the search box provided in the top right corner of the page. For e.g. here write “Kingfisher Pro Fashion”.
- Click on ‘Install’ button.

## Access Rights Management

- Now after installing the theme, to manage the access rights of users go to **Settings -> Manage access rights**.
- By clicking on it you will be redirected to the Users module. Thereafter navigate to the detail page of the particular user for which you want to manage the access rights.
- Now under '**Access Rights**' tab from '**Website**' dropdown list select the '**Editor and Designer**' option to let the particular user modify the '**Slider Configurations**', '**Product Tags**' and '**Product Multiple Images**'.

The screenshot displays the user management interface for a user named Mike. The breadcrumb navigation shows 'Dashboard / Users / Mike'. There are 'SAVE' and 'DISCARD' buttons at the top left, and '2 / 2' with navigation arrows at the top right. The user's name 'Mike' and email address 'mike@appjetty.com' are shown. Below this, there are two tabs: 'Access Rights' (active) and 'Preferences'. The 'Application Accesses' section lists various applications with their corresponding access levels:

Application	Access Level
Sales	User: Own Documents Only
Accounting & Finance	Billing
Employees	
Events	User
Mass Mailing	
Website	Editor and Designer
Administration	Restricted Editor Editor and Designer

**Note:** If the '**Restricted Editor**' option is selected user won't be able to edit the '**Slider Configurations**', '**Product Tags**' and '**Product Multiple Images**' options.

# Theme Configuration

## Configuring Home Slider Snippet

- Go to **Website -> Edit -> Insert Blocks -> Features**. Drag and drop Home Slider Snippet on the page where you want it.
- Click on **'Customize'** to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here.

- Click on any text to change the text of the snippet and on the button to change the button text and Links.

A screenshot of a "Link to" configuration dialog box. It contains the following fields and options:

- Link Label**: An empty text input field.
- Page**: A dropdown menu with "New or existing page" selected.
- URL or Email Address**: A text input field containing "http://openerp.com".
- Style**: Two dropdown menus, "Color Style" and "Size".
- Preview**: A section for previewing the link.
- Buttons: "Save" and "or Discard".

### Configuring Product / Category Slider Snippet

- Go to **Website -> Edit -> Insert Blocks -> Features**. Drag and drop Product / Category Slider Snippet on the page where you want it.
- Select the Type of slider which you want to display on the page.

The image shows a configuration dialog box titled "Product/Category Slider Configuration". It features a "Type" label followed by a dropdown menu currently set to "Best Seller Products". At the bottom right, there are two red buttons: "Cancel" and "Apply".

- **Managing Slider Configurations:**
  - Go to **Sales -> Slider Configurations -> Product / Category Slider Configurations**. Click on 'Create' button to create a new slider category.

The image shows the Odoo Sales interface. The top navigation bar includes "Sales", "Orders", "Invoicing", "Catalog", "Reporting", "Configuration", and "Slider Configuration". The "Slider Configuration" menu is open, showing options: "Product Brands", "Product/Category Slider Configuraton" (highlighted with a red box), and "Multi Product Slider Configuraton". Below the menu, there is a table of quotations.

<input type="checkbox"/> Quotation Number	Quotation Date	Customer
<input type="checkbox"/> S0029	01/25/2018 12:37:02	China Export
<input type="checkbox"/> S0027	01/25/2018 12:37:00	China Export

- Set Slider Name, Status, Counts, Type of Slider, Auto Rotate, and Auto Rotate Speed & Products to display in the Slider.

### Product/Category Slider / New

### Configuring Brand Snippet

- Go to **Website -> Edit -> Insert Blocks -> Features**. Drag and drop Brand Snippet on the page where you want it.
- Set Total Counts & Label for the Brand Slider before adding it to the Website.

The screenshot shows a dialog box titled "Brands Slider Configuration". It contains two input fields: "Total Count" with the value "5" and "Label" with the value "Our Brands". At the bottom right, there are two buttons: "Cancel" (green) and "Apply" (red).

- **Adding Brands to Brand Snippet**
  - Go to **Sales -> Slider Configuration -> Product Brands**. Click on 'Create' button to create a new brand for the Shop.
  - Add Brand Name, Brand Logo, Brand Cover, Associated Brand Products and Brand Description saving the brand.

The screenshot shows the Odoo interface for creating a brand. The title is "Brands / Levis". There are "SAVE" and "DISCARD" buttons at the top left, and "1 / 4" with navigation arrows at the top right. The "Brand Name" field contains a small logo and the text "Levis". To the right, there is a "0 Products" indicator. Below the name is a "Brand Cover" field showing a large red Levi's logo. At the bottom, there is a "Description" field with a rich text editor toolbar and the text: "Levi Strauss & Co. is a privately held American clothing company known worldwide for its Levi's brand of denim jeans."

- To associate Brand to the Products, select any Product and add Brand Name to associate it.
