## 1. Introduction

---

The Kingfisher Pro Fashion Theme is a CMS theme which helps you to enhance your website visibility using color combination and different snippets. It is specifically made for Fashion Industry.

## 2. Pre-requisites

---

Following points must be followed before starting the plug in installation:

- You should login as an Admin in Odoo.
- Check that your Odoo Instance is compatible for Kingfisher Pro Fashion Theme.
- An e-commerce module should be present in your instance to use this app.

## 3. Installation

---

**Step 1: Download and extract the zip file.**

**Step 2: Check your Odoo add-ons path.**

- It should be same as defined in Odoo Config file.
- Config files are mostly saved in /etc folder. For e.g. /etc/odoo.conf
- Open Config file:
  - Give the command: `sudo/etc/odoo.conf`
  - Config file content: `addons_path = /opt/odoo/addons`

**Step 3: Open Terminal and go to download location**

- For e.g. if the download location path is : /home/odoo/Downloads then the command to be written in the terminal would be:  
`cd/home/odoo/Downloads`

**Step 4: Copy download modules to addons path**

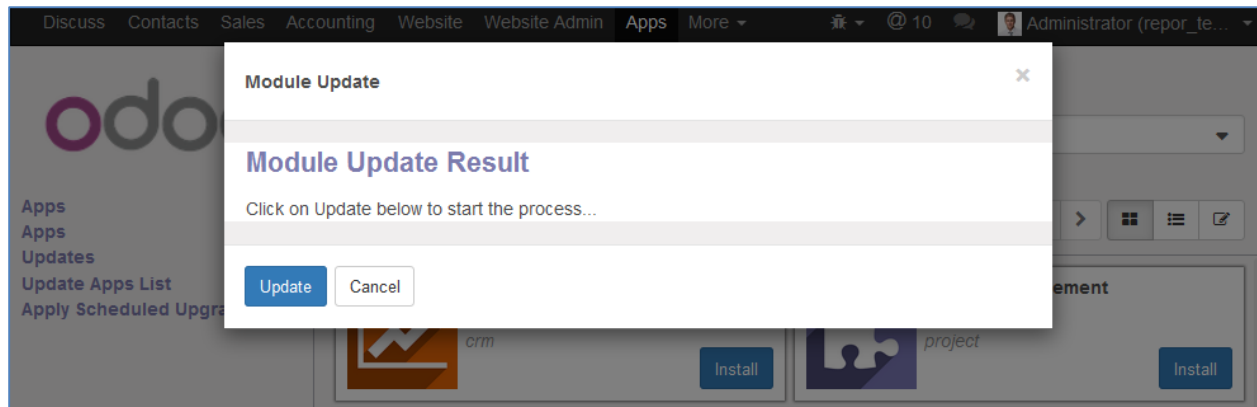

- Give the below mentioned commands to perform copy operation:
  - `$cd /home/odoo/Downloads/kingfisher_pro`
  - `$cd v8`
  - `$sudo cp kingfisher_pro/opt/odoo/addons`

**Step 5: Restart Odoo server**

**Step 6: Login with the admin credentials in your odoo instance.**

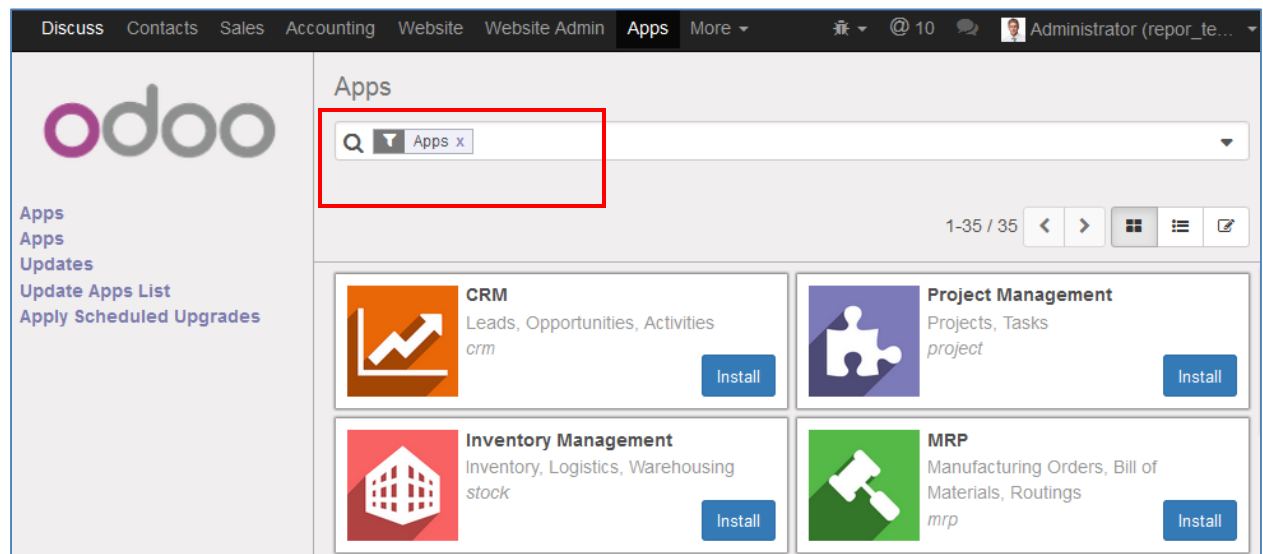

**Step 7: Go to Settings/Update Module List.**

- Click on “Update” button.

**Step 8: Go to Settings/Local Modules**

- Remove search filter

- Enter module name in the search box provided in the top right corner of the page. For e.g. here write “Kingfisher Pro Fashion”.
- Click on install button.

### Step 6: Configuring Blog Slider snippet

- Go to Website -> Edit -> Insert Blocks -> Features. Drag and drop Blog Slider Snippet on the page where you want it.
- Select the type of Blog which you want to display from the menu.

### Blog Slider Configuration

Type

#### ➤ Adding Blogs to the Snippet

- Go to Knowledge to **Create** or **Import** a blog to the snippet. Add Blog title, Blog Tags, Sub Title, Blog and No. of views for the blog.

or

Title	<input type="text" value="Blog Post Title"/>
Tags	<input type="text" value="functional"/>
Sub Title	<input type="text" value="Subtitle"/>
Blog	<input type="text" value="Our News"/>
No of Views	<input type="text" value="10000"/>
<b>Technical</b>	
Last Contributor	
Last Modified on	

- Go to Knowledge -> Slider Configuration to manage blog posts on the web site. Click on **Create** to create a new blog slider.
- Add Slider Name, Status, No. of Blogs in one count, Auto rotate Time and Blog post collection from the list.

The screenshot shows a configuration window with a 'Save' button and 'or Discard' text. The configuration fields are as follows:

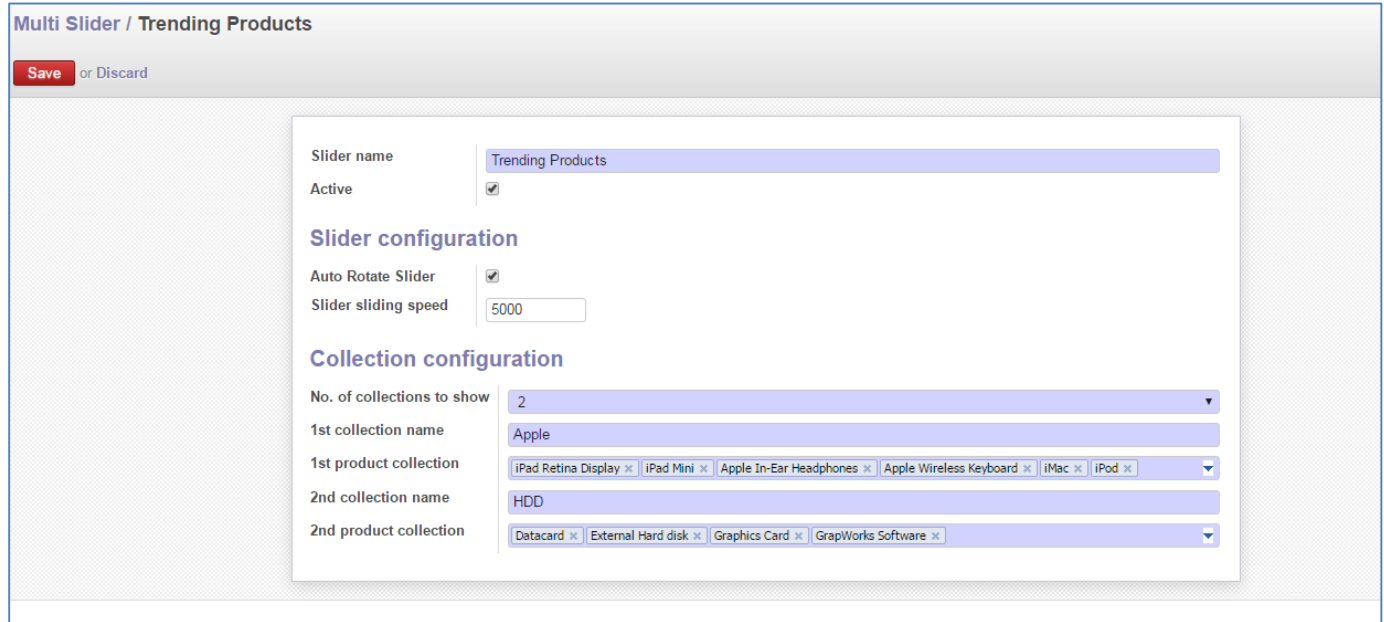

Slider name	Blogs
Active	<input checked="" type="checkbox"/>
Counts	3
Auto Rotate Slider	<input checked="" type="checkbox"/>
Slider sliding speed	5000
Collections of blog posts	Blog Post Title x

### Step 7: Configuring Multi Products Tab Slider Snippet

- Go to Website -> Edit -> Insert Blocks -> Features. Drag and drop Multi Products Tab Slider Snippet on the page where you want it.
- Select the Slider which you want to display on the page.

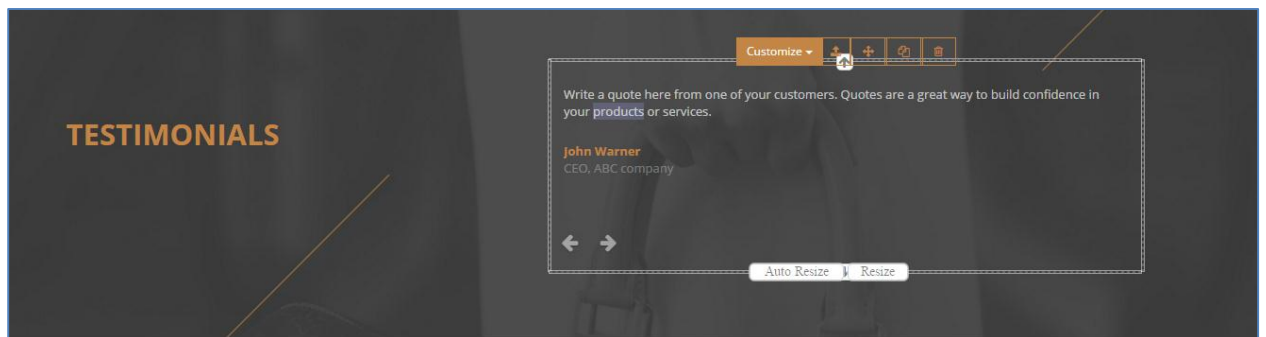

The screenshot shows a configuration window titled 'Multi Product Slider Configuration'. It features a 'Type' dropdown menu set to 'Trending Products' and two buttons at the bottom: 'Cancel' and 'Apply'.

- Go to Sales -> Slider Configurations -> Multi Products Slider. Click on **Create** button to create a new slider.
- Add Slider Name, Status, Auto Rotate Speed, No. of collection (Tabs) for the slider, Collection Name and Products before saving the slider.
- You can add up to 5 collections in the slider.

## Step 8: Configuring Testimonials slider snippet

- Go to Website -> Edit -> Insert Blocks -> Features. Drag and drop Testimonial Slider Snippet on the page where you want it.
- Click on the text to edit it the way you want. Click on Customize to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here.

## Step 9: Configuring Service snippet

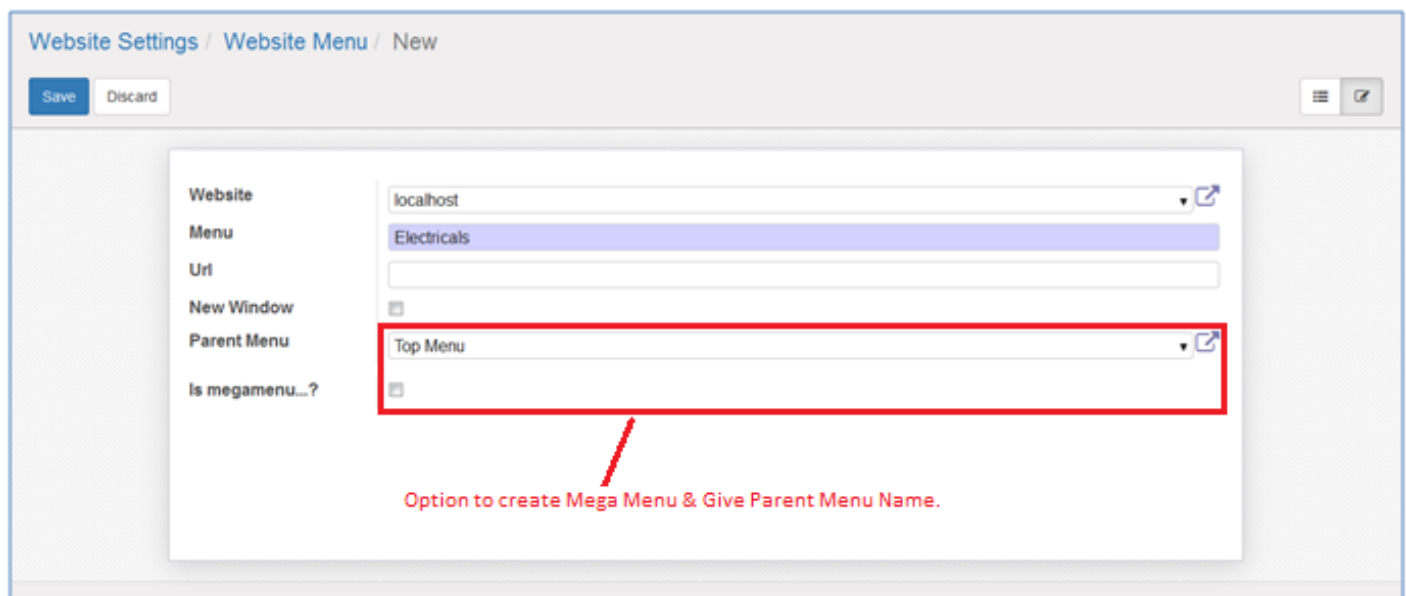

- Go to Website -> Edit -> Insert Blocks -> Features. Drag and drop Service Snippet on the page where you want it.
- Click on Customize to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here.

## Step 10: Advance Mega Menu Settings

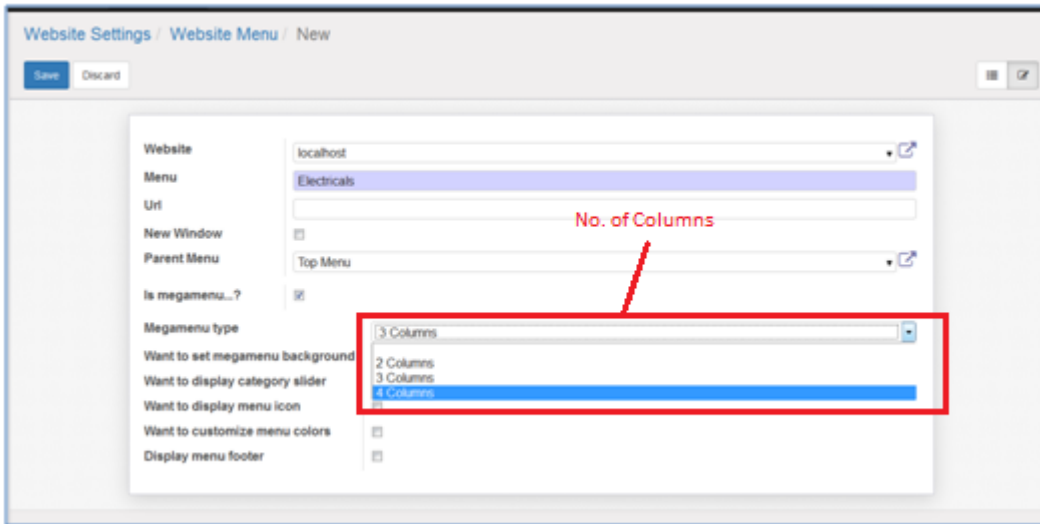

### Step 10.1: Creating Mega Menu

- Go to Website Settings -> Menu -> Configure Website Menus. In this you will find **Create** Button. Click on it to create a menu.
- There you will have options to add Web Site, Menu Name, URL for Menu, Option to open menu in new window, Parent Menu & If the new menu is mega menu or not.

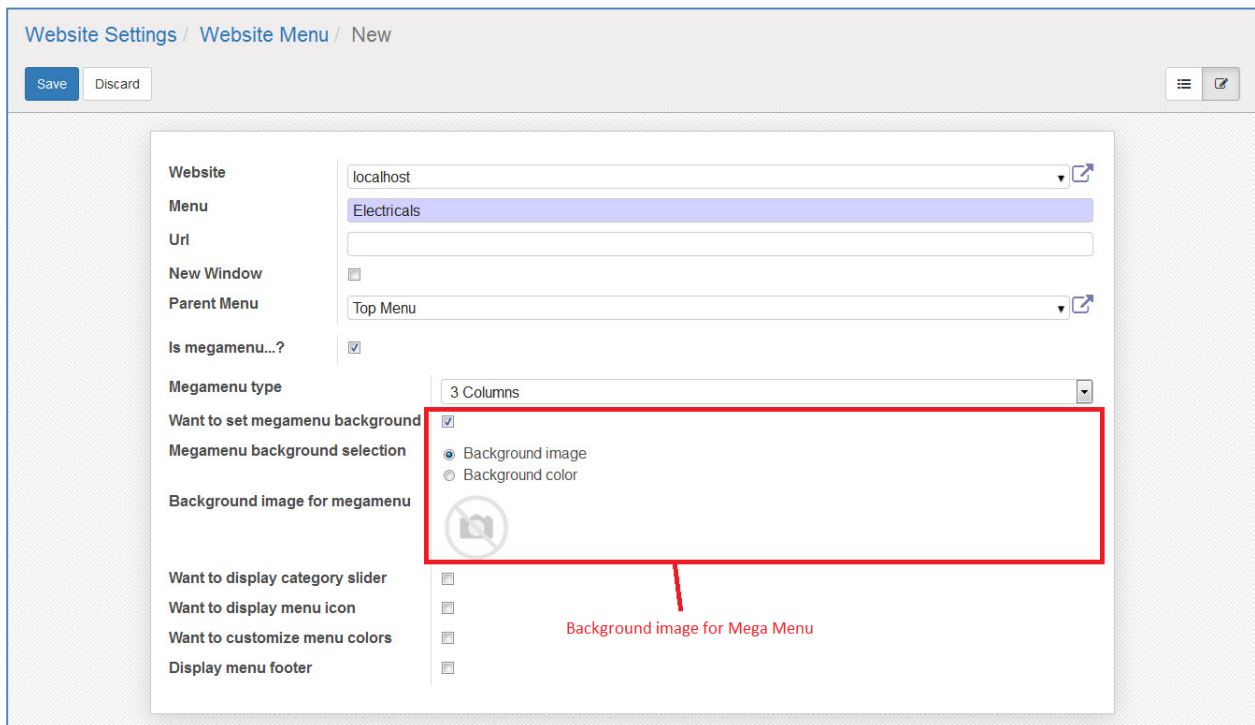

### Step 10.2: Mega Menu Configuration

- Select **Is megamenu...?** Option to create mega menu & give configurations as required.
- You can directly add URL for the Mega Menu and can also add it in New Window.
- **Mega Menu Type:** No. of columns needed in Mega Menu.

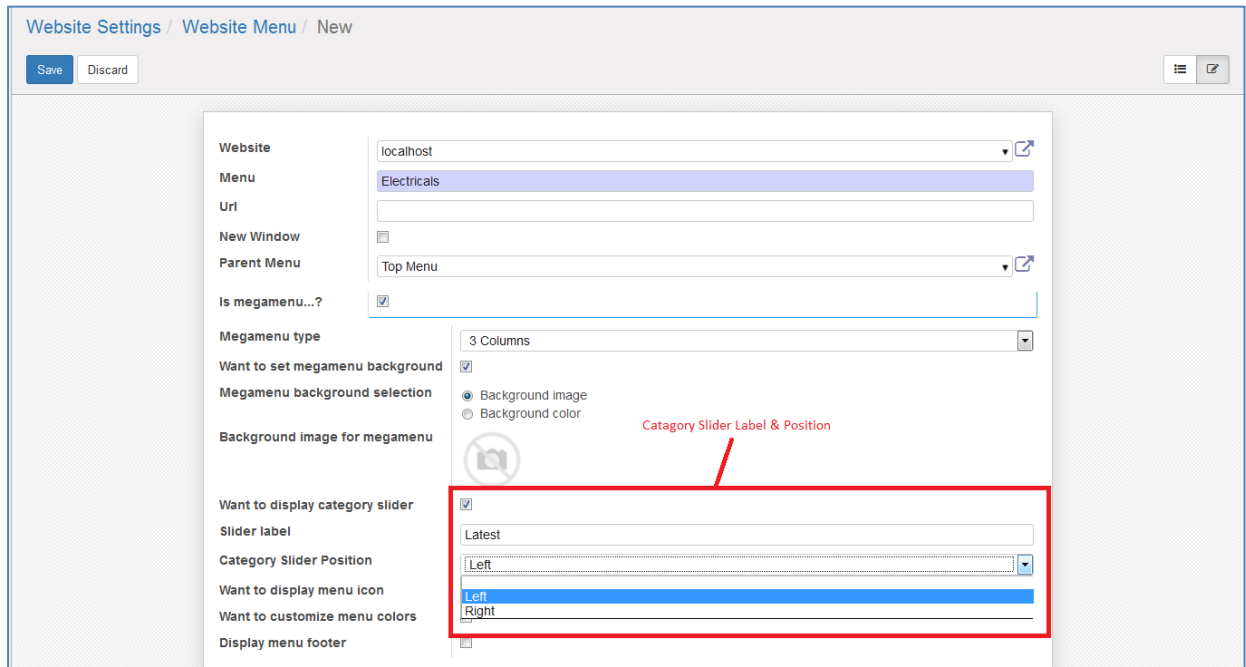

- **Mega Menu Background:** If you want background in Mega Menu you can set it from here. It can be Image or Color.
  - **For Image:** You have to upload image and it will be set in mega menu.
  - **For Color:** Hash code of color is needed to define background color.

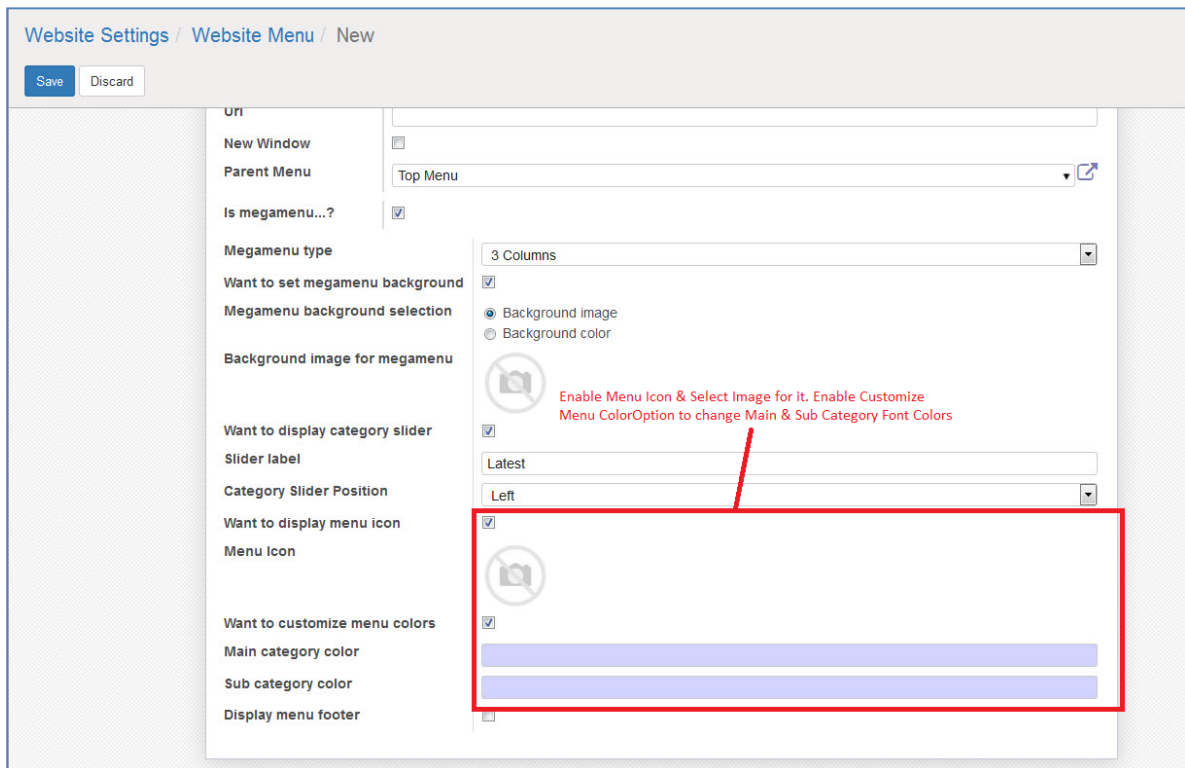

- **Category Slider:** To display category slider, select **display category slider** option & additional functionalities like Slider label & Position will be displayed.

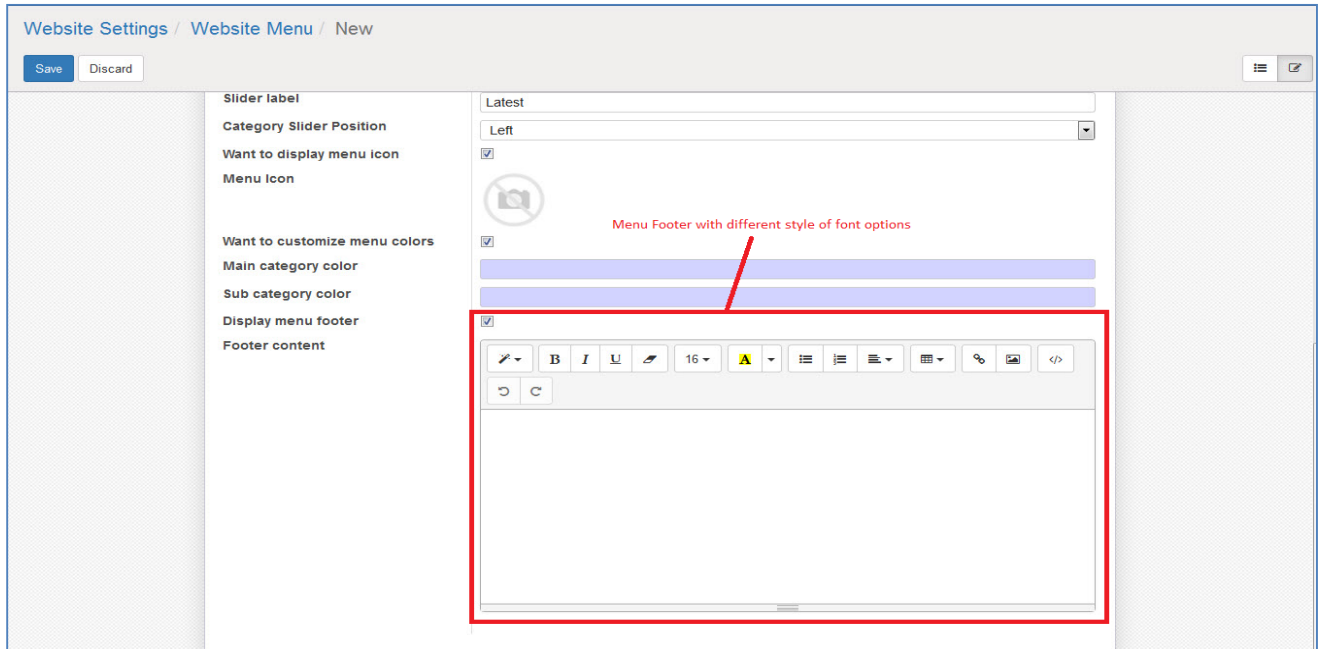

- **Menu Icon & Colors:**

- To give icon to menu select option Display Menu Icon and upload image for the menu.
- To change font Color for Categories & Subcategories, enable Customize Menu Color Option & give hash code for Main & Sub Category Fonts.

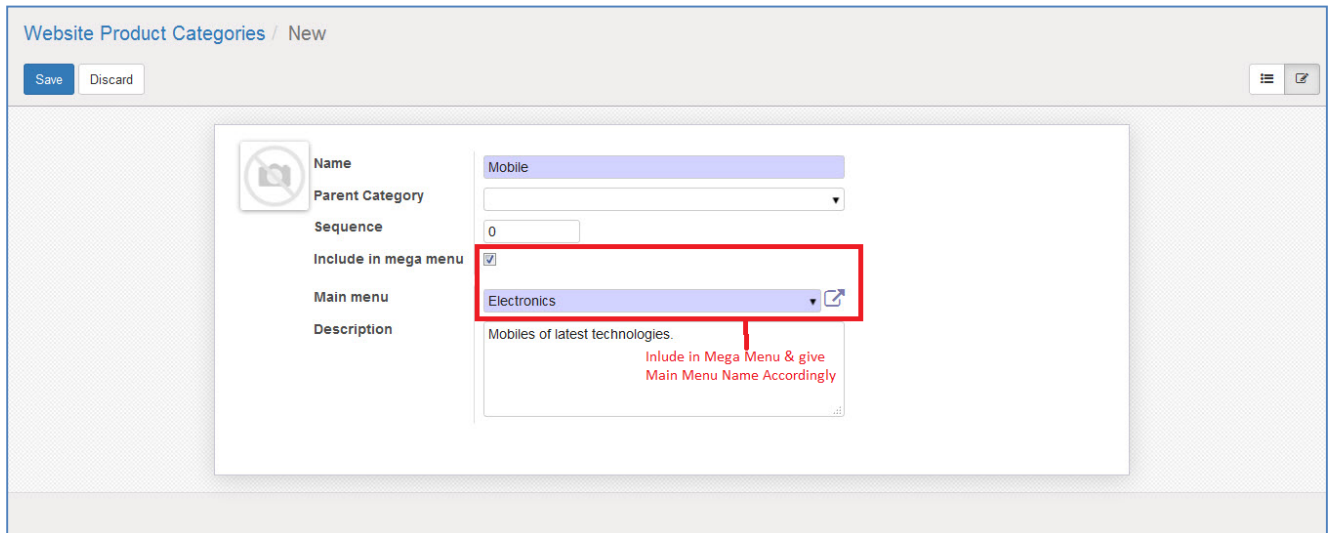

○ **Menu Footer:**

- To display menu footer enable Display Menu Footer option and give text for the footer.

**Step 10.3: Mega Menu Categories & Sub Categories**

- Go to Sales -> Products -> Web Site Product Categories. In this you will find Create Button. Click on it to create a Product Category.
- **To create Main Category:** Give Name of category, Click on Include in Megamenu Option, Give Main Menu as the menu in which you want to create category in. You can also give sequence No. for deciding sequence in Mega menu list.

- **To create Sub Category:** Give Name of category and give category name in which you want to create sub category in. You can also give sequence No. for deciding sequence in Category List.

The screenshot shows the 'Website Product Categories' form for 'Sony'. The form is titled 'Website Product Categories / Mobile Phones / Sony'. It has 'Save' and 'Discard' buttons at the top left. The form fields are:
 

- Name:** Sony (highlighted with a red box)
- Parent Category:** Mobile Phones (highlighted with a red box)
- Sequence:** 0
- Include in mega menu:**

 A red arrow points from the text 'Name & Parent Category Name' to the 'Name' and 'Parent Category' fields.

## Step 11: Product Image Gallery Configurations

### Step 11.1: Creating New Product

- Go to Sales -> Products. In this you will find **Create** Button. Click on it to create a New Product.
- There you will have options to **add Multiple Images**. After clicking that you can set multiple images for the product.

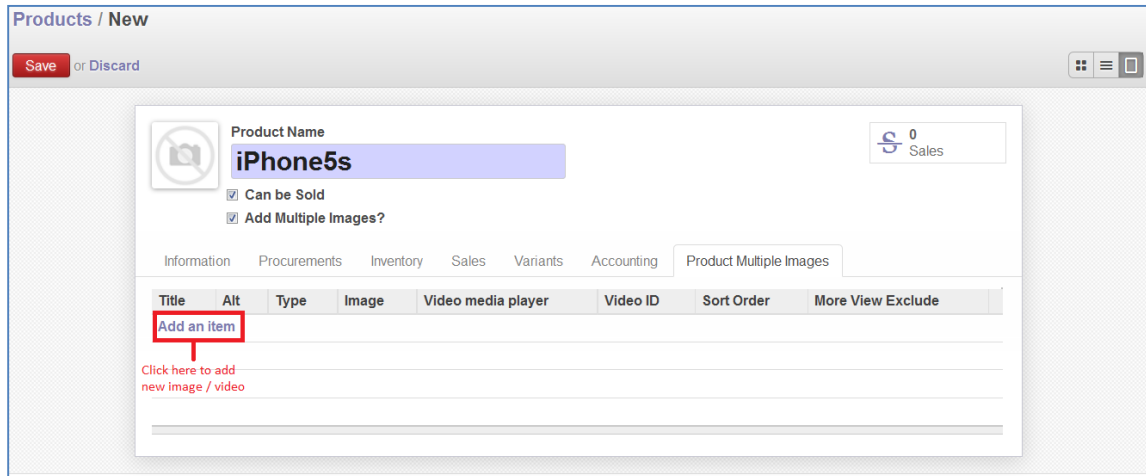

The screenshot shows the 'Products / iPhone 5s' form. It has 'Save' and 'Discard' buttons at the top left. The form fields are:
 

- Product Name:** iPhone 5s (highlighted with a red box)
- Can be Sold:**
- Add Multiple Images?:**  (highlighted with a red box)
- Product Type:** Consumable
- Sale Price:** 1.00
- Active:**
- EAN13 Barcode:** [Empty field]
- Internal Reference:** [Empty field]

 A red arrow points from the text 'Add Multiple Images for the Product' to the 'Add Multiple Images?' checkbox. Another red arrow points from the text 'Multiple product image tab' to the 'Product Multiple Images' tab. The 'Product Multiple Images' tab is highlighted with a red box.

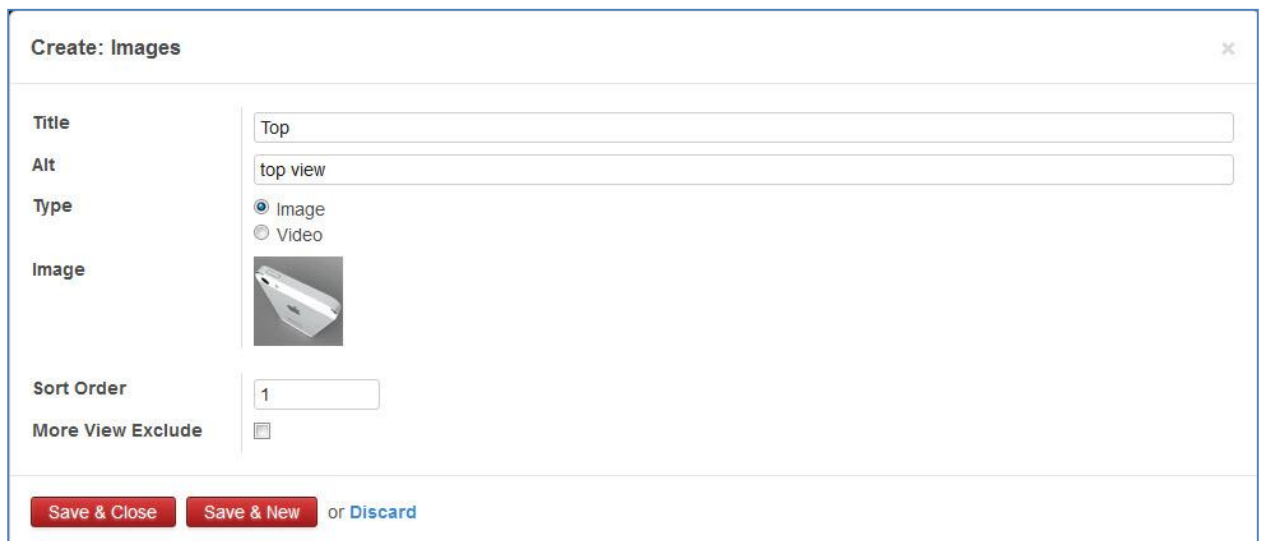

### Step 11.2: Add Multiple Images to the product

- Click on **Product Multiple Images** tab.
- Click on **Add an item** option to start adding images for the product.

### Step 11.3: Creating a new Image

- After adding an item you'll be redirected to create image pop up.
- Give proper Title, Alt text, Type (Image / Video), Image and Sorting order.
- If you don't want to include this image in Custom Product Image Gallery click on More View Exclude.
- Click on **Save & Close** to create new image.
- To create another image / video click on **Save & New**.

#### Step 11.4: Creating a new Video

- After adding an item you'll be redirected to create image pop up.
- Give proper Title, Alt text, Type (Image / Video), Image and Sorting order.
- To create Video click on **Video** option.
- Give proper type to video which can be of
  - **You Tube Video**
  - **Vimeo Video**
  - **HTML 5 Video**
- If you don't want to include this video in Custom Product Image Gallery click on More View Exclude.
- Click on **Save & Close** to create new Video.
- To create another image / video click on **Save & New**.

The screenshot shows a 'Create: Images' dialog box with the following fields and options:

- Title:** demo\_5s
- Alt:** Demo for iPhone
- Type:** Radio buttons for Image and Video (Video is selected).
- Video media player:** A dropdown menu with 'Youtube' selected.
- Video ID:** A text input field containing 'Youtube'.
- Sort Order:** A text input field containing '0'.
- More View Exclude:** A checkbox that is unchecked.

At the bottom, there are three buttons: 'Save & Close' (red), 'Save & New' (red), and 'or Discard' (blue).

#### Step 11.5: Panel Options

- Go to Settings -> Website Settings. You'll see settings for Multiple Product Image.
- Which includes settings for:
  - **Slider Effect:** Select this option to enable slider effects.
  - **Thumbnail Panel Position:** This drop down allows admin to select Thumbnail panel position from Left, Right or Bottom.
  - **Play Interval of Slideshow:** This allows admin to manage interval between two images in slideshow.
  - **Enable Text Panel:** Select this option to show text along with images in panel.
  - **Thumbnail Overlay Effect:** This option allows admin to choose thumbnail overlay effects from Default, B/W, Sepia or Blur.
  - **Change Thumbnail Size:** To change thumbnail height and width, enable this option.

### Multiple Product Image

## Step 16: Adding Products per Grid

- Go to Website Admin -> Configuration. In this you will find option **Product per grid**.
- Select no. of products to display in ion a grid for shop page.

The screenshot shows a configuration form titled "Product per grid". On the left, the label "Product per grid" is displayed. To its right is a dropdown menu with a blue border and a downward arrow. The dropdown is open, showing a list of numbers: 2, 3, and 4. The number 4 is highlighted with a blue background, indicating it is the selected value.

## Step 17: Add Flip Image of Product

- Go to Sales -> Products. Select the product in which you want to add a flip image.
- Click on **Edit** and select **Add Flip Image**. Now go to **Product Flip Image** tab.

The screenshot shows the Odoo Product Form for "Apple In-Ear Headphones". The left sidebar contains the Odoo logo and a navigation menu with sections for Sales, Products, and Configuration. The main content area is titled "Products / Apple In-Ear Headphones" and includes a "Save" button and a "Discard" button. The product name is "Apple In-Ear Headphone" and the brand is "Brand". There are three checkboxes: "Can be Sold" (checked), "Add Multiple Images?" (unchecked), and "Add flip image" (checked). Below the form, there are tabs for "Information", "Procurements", "Inventory", "Sales", "Variants", "Accounting", and "Product Flip Image". The "Product Flip Image" tab is active, showing a placeholder image of a pair of white earbuds with the text "Add flip image which will be visible on product hover in website".
